SUPPLEMENT

1. [REDACTED] at
crisis in the Soviet Zone similar to that which recently occurred
in Hungary. After the expected failure of the next peace conference,
a "reactionary plot" will be discovered, immediate action will be
taken to install an SED government, and Soviet domination will be
complete; Russia will then conclude a separate peace with the Russian
Zone.
25X1X
2. [REDACTED] little can be done to prevent the development
of such a situation. The western powers must be persuaded to demand
that a plebiscite be conducted under supervision of all four Allies;
the Russians will not permit this, and the western powers will not
allow the Eastern Zone of Germany to be the cause of a break between
themselves and Russia. In the event that a "Hungarian crisis" does
occur, the CDU must be dissolved, and its leaders must emigrate to
the west. It would be inadvisable to make such a move of protest
at the present time, since there is little doubt that a new CDU
would be formed by SED and Russian circles.
